flowrate.agency

THE 1-PAGE APP BRIEF

Fill this in before you talk to any developer. Six boxes, about ten minutes. Rough is fine. The grey text in each box is an example.

1 WHO WILL USE IT?

Name the real people. “Everyone” isn’t an answer.

e.g. Customers ordering a cake. Thandi on orders. Two bakers.

2 THE ONE JOB IT MUST DO

One sentence. If it needs “and”, it’s two apps.

e.g. Take a custom cake order without 40 WhatsApp messages.

3 WHAT HAPPENS TODAY

Every place the information lives now, in order.

e.g. WhatsApp → voice notes → the order book → deposits chased by hand.

4 WHAT GOES IN, WHAT COMES OUT

What someone types in, and what the app hands back.

e.g. In: date, size, flavour, message. Out: bake list, deposit request.

5 WHAT MUST STAY THE SAME

Your prices, your tools, the way you like to work.

e.g. Our prices. Our recipes. WhatsApp for chatting.

6 HOW YOU’LL KNOW IT WORKS

One result you could check in a month.

e.g. No double-booked Saturdays. Every deposit in before we bake.

DONE? THAT'S A BRIEF ANYONE CAN PRICE.

Send it back to us in the DM. We'll come back with the first small step we'd build, at a fixed price agreed before we start.
